SQUARE WOOD STORAGE

SQUARE WOOD STORAGE

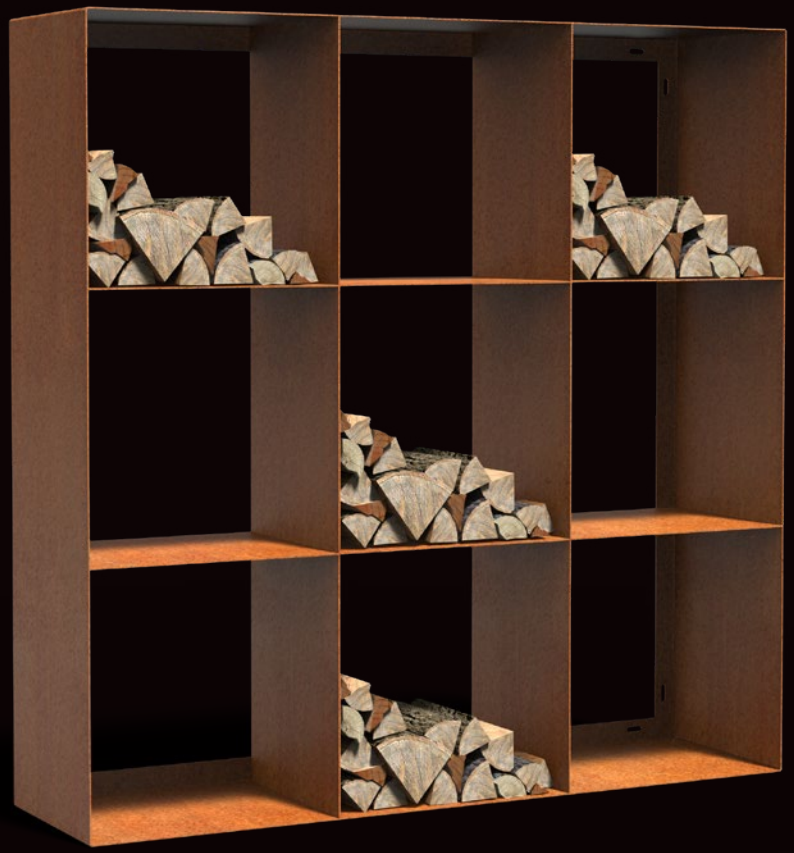

The SQUARE WOOD STORAGE, has a modern square design. This stylish element can be mounted on a wall, but can also be used free-standing, of course.

FEATURES

The SQUARE WOOD STORAGE is a practical design element for your garden. The square compartments make it easy to stack all the wood for your outdoor fireplace. The warm tone of corten steel perfectly complements the natural look of stacked wood. Mounting holes allow you to attach the wood store to a wall. The SQUARE WOOD STORAGE is heat resistant and can be positioned next to your outdoor fireplace.

The SQUARE WOOD STORAGE is made of corten steel, which will develop an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

SPECIFICATIONS

- 5-year warranty.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a thickness of 3 mm.
- Reinforced to prevent warping.
- Includes mounting holes.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- Always place the wood store on a flat, stable surface.
- We advise securing the wood store to a wall to ensure stability.
- Products are delivered without rust. The corten steel rusting process takes about 4–5 months, depending on weather conditions.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.
