

SC CORTEN

STORAGE CABINET

STOAGE CABINET

This original garden storage cabinet is ideal for storing wood, kindling and garden tools.

FEATURES

The STORAGE CABINET is the perfect storage unit for all your wood and garden tools. The cabinet has several compartments to make stacking and organising easy. The doors keep everything dry and clean. The STORAGE CABINET is heat resistant and can be positioned next to your outdoor fireplace. The warm tone of corten steel perfectly complements the natural look of stacked wood, making the STORAGE CABINET the ideal combination with our open wood stores.

The STORAGE CABINET is made of corten steel, which develops an orange-brown patina over time. Corten steel is a metal alloy made by adding copper, phosphorus, silicon, nickel and chromium to iron. When exposed to air, the material forms a protective layer of rust. This natural coating prevents further corrosion.

SPECIFICATIONS

- 5-year warranty.
- Corten steel is very robust, hard-wearing, weatherproof, low-maintenance and durable.
- The corten steel has a thickness of 3 mm.
- Reinforced to prevent warping.
- Includes lock.

KEY POINTS TO NOTE

- Products should be unpacked immediately upon receipt to release any moisture trapped inside the packaging. If the product is left in its packaging, it may develop patches of uneven discolouration.
- Always place the wood store on a flat, stable surface.
- We advise securing the wood store to a wall to ensure stability.
- Products are delivered without rust. The corten steel rusting process takes about 4–5 months, depending on weather conditions.
- We do not recommend using corten steel within 2 km of a coastline.
- The weathering process may cause rust run-off.
- The guarantee is void if the product is drilled, sanded or scoured in a manner other than prescribed.
